

Artificial Intelligence (AI) Usage Declaration

As part of our policy, all authors are required to include a declaration regarding artificial intelligence tool usage in their manuscripts. This declaration should be placed in the acknowledgments section.

Required Declaration: Authors must include one of the following statements in their manuscript:

For manuscripts using AI tools: "The authors used [name of AI tool, such as ChatGPT, Claude, Grammarly] to assist with [specific purpose: grammar checking, language editing, literature review, etc.]. All content has been reviewed and revised by the authors. The authors take full responsibility for the accuracy and originality of the work."

For manuscripts not using AI tools: "No artificial intelligence tools were used in the preparation of this manuscript."

Guidelines for AI Tool Usage: Authors using AI tools must specify which tools were used and for what purpose. All AI-generated content must be reviewed and edited by the authors. AI tools cannot be listed as authors or co-authors. Authors are responsible for ensuring all content is accurate and original.

Acceptable uses of AI tools include: Grammar checking, language editing, literature search assistance, and reference formatting.

AI tools should not be used for: content generation, image creation, data analysis and interpretation, or drawing conclusions.

Important Note: Failure to provide accurate information about AI tool usage may be treated as academic misconduct.
